

What Mankind Has to Learn

By Creadell Haley

^C There's only one God, throughout the universe ^F ^{G7}

^C But man multiplied Him, and so ^{G7}

^C There's a *your* God and *my* God ^{C7}

^F What mankind has to learn is that ^{G7}

^C There's only one God to know ^F ^{G7} ^C

There's only one race of men upon the earth
But man did divide it, and so
There's a *black race*, a *white race*
What mankind has to learn is that
There's only one race to know

Earth was one country when God gave it to man
But man did divide it, and so
There's a *China*, a *Turkey*
What mankind has to learn is that
Earth is one country to know

Religions are one as the Prophets all have sung
But mankind denied them, and so
There's a *just my religion*
What mankind has to learn
Is religions are one thing to know

There's only oneness throughout the world of God
But man won't believe it, and so
He divides and multiplies it, oh
Won't he ever learn
That there's only oneness to know
